

We place great emphasis on developing positive attitudes to learning, and towards others, whilst introducing and developing key skills across our creative curriculum. Our creative approach to teaching and learning, which is rooted in talk for learning and thinking skills, leads to relevant, meaningful and motivational learning experiences which are tailored to the needs of each individual and ensures every child learns in an exciting and stimulating way.

We believe full partnership with all members of our community is the best way to ensure success for our children and work closely with families and other people from all walks of life to do so.

As a result of the key features of our school ethos and approach, we ensure that our children are valued as individuals and are encouraged to learn within a safe, caring, supportive and secure environment. Each child is encouraged to develop as an individual and achieve their very best.
