

Dig Deep

How can we create composition showing light and dark?

1. What is Jazz music?

Jazz is a type of music which was invented in the United States.

Jazz music combines African-American music with European music.

Jazz first became popular in the 1910s. It is still a popular music to play and hear because of the different styles.

2. What contrasts can you hear within this piece of music?

Tempo is how fast and slow music is.

Dynamics is how loud or soft a sound is.

Texture refers to the interaction of melodies and harmonies within a song.

Pitch is how high and low a sound is.

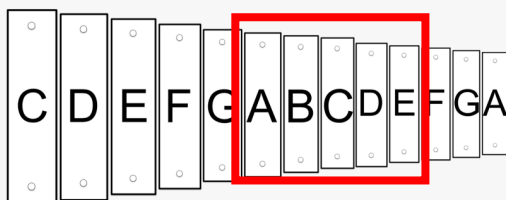

3. Can we use rhythm, pitch and dynamics to represent light and dark at Stonehenge?

Untuned Instruments do not change in pitch.

Percussion instruments are musical instruments that generally are used to establish rhythm. Percussion instruments make a sound when they are struck, shaken, scraped, plucked, or rubbed.

5. How can I create a composition to show the changing light at Stonehenge?
