4. How has this coastline changed over time and what will it look like in 20 years?

Erosion or weathering often affect coastlines. Over time, the coastline will shrink leading to less land for humans. In the last twenty years some of the coastline has fallen into the sea. Due to erosion, the land can be very dangerous and people have had to move.

2. What does the Ordnance Survey map tell us about Birling Gap, Cuckmere Haven and Seven Sisters?

Applying Past Knowledge

This links with your Year 3 learning about rivers.

- Ordnance Survey the official mapping agency of Great Britain.
- Grid Reference a way of describing a specific location on a map using numbers.
- Erosion natural process that happens when things like wind or water slowly wear down rocks and land over time.
- Sustainable using things in a way that doesn't harm the planet and ensures we can keep using them for a long time
- Coast the area where land meets the sea or ocean
