

A Change Over Time

1. What is the difference between the past and the present?

The **past** is an event or action that has **already happened**.

The **present** is an event or action that is **happening now**.

(We will link this to when we were babies compared to now).

How have toys changed over time?

2. What are your favourite toys to play with?

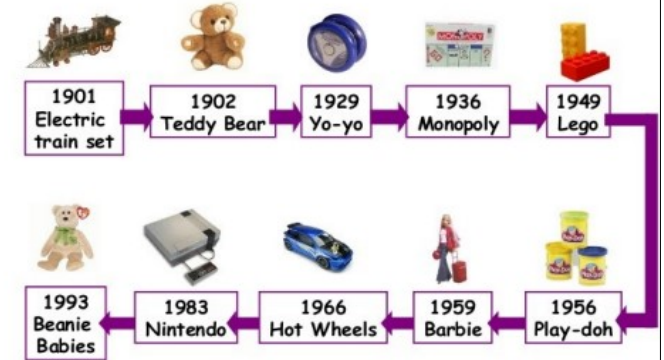

We will compare the toys we **played with as babies** *compared to* the ones you play with **now**.

past

present

Here is a timeline of when some popular toys were invented.

Key Vocabulary

difference	how something is unlike something else
history	It is the study of the past
past	event or action that has already happened
present	event or action that is happening now
Chronological order	arranged in the order that it happened

3. How long have people been playing with these toys?

People/ humans have been playing with toys for **hundreds of years**. We can use a **timeline** to put their inventions in **chronological order**.

4. What are the similarities and differences between toys?

As **historians** we can *compare* toys from the past and present. We are able to describe things that are the **same** and things that are **different** between them.
