

Journey Over Europe:

What are the countries in Europe and what are the capital cities?

The equator is the imaginary line that runs around the centre of the globe at 0 degrees latitude, at equal distance between the North and South Poles..

Human Geography	The study of humans in the world.
Physical Geography	The study of the world around us e.g. lakes, mountains etc.
Longitude	Distance on the earth's surface east or west of an imaginary line on the globe that goes from the north pole to the south pole and passes through Greenwich, England.
Latitude	The distance between the equator and a point north or south on the earth's surface.
Population	The number of living people that live together in the same place.
Economic activity	The amount a country makes and sells.

Human and physical features are things that you can see all around you.

Physical features like seas, mountains and rivers are **natural**. They would be here even if there were no people around.

Human features are things like houses, roads and bridges. They have been **built by people**.
